Professional Profile

A high-performing Full-Stack Developer and technical leader with over 6 years of digital project expertise. Serving as the CEO and Founder of HibroLab Productions, I bridge the gap between robust, scalable systems engineering and compelling user experiences. Highly proficient in application architecture, backend data structures, and cross-platform workflows, complemented by a unique, disciplined background in creative literature, narrative design, and algorithmic problem-solving.

Technical Skills

- **Languages:** Flutter & Dart, C, C++, Python, Java, JavaScript, PHP, SQL.
- **Core Engineering:** Data Structures & Algorithms (DSA), System Architecture, Object-Oriented Programming (OOP).
- **Web Ecosystems:** HTML5, CSS3, JavaScript (JS), React.
- **Backend & Cloud Database Architecture:** Supabase, Firebase, Firestore.
- **Version Control & Developer Tools:** Git, GitHub, VS Code, Claude, Cursor.
- **Creative Focus:** Songwriting, Scriptwriting, Creative Writing, Novel Structuring.

Professional & Leadership Experience

HibroLabProductions | Nashik, India

CEO & Founder | Present

- Establish and lead product direction for a multi-disciplinary software production pipeline targeting agricultural, security, and utility tooling.
- Architect and execute lightweight, performant software applications from conceptual wireframes to deployed full-stack architectures.

Technical Expedition Portfolio (Key Projects)

- **Agriman (AgriTech Platform)**
 - Stack: Flutter, Dart, Firebase, Open-Meteo API
 - Description: Engineered a comprehensive bilingual digital farming system tailored for local farmers. Integrated live external weather feeds alongside custom fertilization and regional task scheduling engines to maximize seasonal crop efficiency.
 - <https://agri-man.vercel.app/>
- **BCA Vault (Secure EdTech Infrastructure)**
 - Stack: Supabase, React, Express, Node.js
 - Description: Designed and deployed a secure, role-based access document hub enabling authenticated computer science students to store, preserve, and query critical academic archives and study materials.
 - <https://bca-for-friends.vercel.app/>
- **Local Market (E-Commerce Ecosystem)**
 - Stack: PHP, SQL, JavaScript, HTML/CSS
 - Description: Built an interactive regional web marketplace providing self-service merchant dashboards for small local sellers to manage inventories and process safe, localized checkouts directly with end customers.
- **Cowcare (Livestock Management System)**
 - Stack: React, Firebase, Tailwind CSS

- Description: Created an intuitive metrics dashboard focused on livestock optimization, allowing seamless tracking of medical diagnostic history, nutritional plans, and strict cattle vaccination intervals.
 - <https://cowcare.infinityfreeapp.com/>
- **Anitale (Entertainment Tracking Journal)**
 - Stack: React, Supabase, Tailwind CSS
 - Description: Developed a personalized text metadata journal and scoring platform for animation collectors, implementing optimized state filters and historical log persistence.
 - <https://ani-tale.vercel.app/>
- **Quizzer (Interactive Media Architecture)**
 - Stack: Java, Android SDK, OOP Design Patterns
 - Description: Programmed a rapid time-trial quiz application built on modular design rules, incorporating local leaderboard arrays and seamless configuration resets.
 - <https://quizzer-phi-pearl.vercel.app/>
- **Chatbird (In Development)** — A real-time reactive messaging application utilizing instant Firestore change-listeners for continuous text synchronization and session security.
- **Custom Core AI Agent (Training Phase)** — Implementing customized natural language training iterations and heuristic context patterns within Python matrix frameworks to map data models.
- **Hyperion Browser (In Development)** — Creating a lightweight desktop browser alternative focused on optimizing sandbox memory structures and cache isolation paradigms.
- **Hibro Editor (In Development)** — Structuring a high-speed text parsing text editor optimized for swift data buffers and minimalist layout rendering.

Education

Bachelor of Computer Applications (BCA)

KTHM College, Savitribai Phule Pune University | Nashik, India

- First Year Result: 9.56 CGPA
- Second Year Result: Awaited
- Current Status: Third Year Undergraduate (TYBCA)

Achievements & Literary Marks

- 2nd Runner Up | 4th International Marathi Literature Summit (2026)
Recognized internationally for excellence in storytelling and creative marathi composition.
- 2nd Place Winner | BC Square Competition
Honored for standout technical skill in a high-stakes computing logic challenge.
- Certificate of Participation | Zomathon Hackathon
Collaborated under intense constraint parameters to construct functional web prototypes.
- Certificate of Participation | Microsoft AI Hackathon
Explored natural intelligence frameworks and remote deployment architectures.
